CITIZENS INDORSE

Columbia Heights Association Enthusiastic Over Proposition.

Committee Appointed to Attend Public Hearings by Commissioners.

Stocking Speaks for Improving of Older Sections of City.

The Columbia Heights Citizens' Association last night unanimously indorsed the Madden bill now before Congress for 75-cent gas, and at the same time indorsed the Madden and Wiley bills, which provide for a system of universal transfers on all street car lines operated within the District.

This action was taken at the regular January meeting of the association, held at the Savoy. Owing to the inclement weather the attendance was not large, but the enthusiasm of those present made up for the lack of numbers.

Secretary W. B. Todd presented a communication from the District Commissioners inviting the association to send representatives to the two mubics.

send representatives to the two public hearings of the Madden and Wiley bills to be held Thursday and Friday at the District building. The invitation was accepted, and the indorsement of the two bills followed. Judge Charles S. Bunday, president of the association, and W. B. Todd, its secretary, were named as the committee to advocate the passage of the bills.

Discuss Street Report.

The committee on street extension submitted its report, with the recommendation that the whole subject be referred to the executive committee. This brought about a heated discussion, led by E. B. Stocking, who favored a full and open discussion of the subject. full and open discussion of the subject on the floor of the association. He said the many costly suburban improve-ments made in the District were being made to the detriment of the older sec-tions or congested portions of the town, and that Pennsylvania areanse the and that Pennsylvania avenue, the principal thoroughfare of the Capital, had been left to its fate, and was all that it should not be.

In referring to the matter of appraisements of benefits and damages to property in the extension of streets, he claimed that unjust favoritism was shown to many to the disadvantage of the masses, and he said that the basis of the translate of the said that the basis of the said that the said that the basis of the said that the said that the said that the basis of the said that t of the trouble was that legislation in some instances gave the Commissioners the option to fix the rate of benefits or iges as they saw fit.

Mr. Stocking declared the injustice of Mr. Stocking declared the injustice of such assessments was due to the fact that the matter was in the hands of expert feal estate men who had the Commissioners by the throat. Mr. Stocking favored the division of the city into districts for street extensions, each district to bear whatever cost there might be for the improvements it enjoyed. The whole matter was laid on the table for future consideration.

Destroying Bad Food.

The committee on pure food submitted a report from the District Health De-partment, in which it was stated that inspectors made examinations of the cold storage houses once a week and sometimes oftener, and where it was found necessary to make condemnations of meats the meats were treated to a coal oil bath and then turned over to the garbage people. The association's committee will make a personal inspection of the slaughter houses and cold storage plants at an early date.

The committee on alleys reported that
the District Commissioners had ap-

the District Commissioners had approved the opening of the following alleys and that the District Attorney now had the papers in the cases to prepare condemnation proceedings:

Alley in block 32, between Thirteenth and Fourteenth, Fairmount and Girard.

Alley in block 33, between Thirteenth and Fourteenth, Girard and Harvard.

Alley in block 34, between Thirteenth and Fourteenth, Harvard and Columbia.

Alley in block 35, between Thirteenth and Fourteenth, Columbia and Irving.
